## ADDENDUM 1 – Tier Systems

### ENGLAND ONLY (PAUSED DURING NATIONAL LOCKDOWN)

As of 14 October 2020, England will move localised restrictions to a three tier alert system, the idea being that it will streamline and simplify localised restrictions. Each area of England will be placed into one of the three tiers and should follow the guidance as follows:

Tier 1 – Medium	Tier 2 – High	Tier 3 – Very High
<p>National Restrictions apply including:</p> <ul style="list-style-type: none"> <li>• 'Rule of Six' indoors and outdoors.</li> <li>• Hospitality curfew of 10pm and table service only.</li> <li>• Work from home if you can.</li> <li>• When travelling, plan ahead or avoid busy times and routes. Walk or cycle if you can.</li> <li>• All other restrictions remain as per the detail within the aide memoire.</li> </ul>	<p>Increased restrictions including:</p> <ul style="list-style-type: none"> <li>• No socialising with anybody outside of your household or support bubble in any indoor setting, whether at home or in a public place.</li> <li>• Rule of six to apply outdoors.</li> <li>• Travel permitted but reduce journeys where possible.</li> </ul>	<p>Further increased restrictions including:</p> <ul style="list-style-type: none"> <li>• No socialising with anybody outside of your household or support bubble indoors or outdoors, although rule of six applies in some public areas such as public parks and beaches.</li> <li>• Pubs and bars must close. They can only remain open where they operate as a restaurant, i.e. serving substantial meals. They may only serve alcohol as part of such a meal.</li> <li>• Wedding ceremonies can go ahead with upto 15 guests but no reception allowed.</li> <li>• Avoid travelling outside or entering a very-high alert level area, other than for things like work, education or youth services, to meet caring responsibilities or if you are travelling through as part of a longer journey.</li> </ul> <p><b>Note: Tier 3 restrictions may be increased beyond the above including the closure of businesses such as; gyms, leisure outlets, tourist attractions etc.</b></p> <p><b>Further restrictions will be agreed at a local level.</b></p>

## **ADDENDUM 2 – Protection Levels**

### **SCOTLAND ONLY**

As of 02 November 2020, Scotland will move localised restrictions to a five level protection system, the idea being that it will streamline and simplify localised restrictions. Each area of Scotland will be placed into one of the five levels and should follow the guidance as follows:

Level 0	Level 1	Level 2	Level 3	Level 4
Broadly comparable to the position reached in Scotland in August when the virus was very suppressed, but still a threat. At this level, you would be able to meet indoors with 8 people from 3 households, and most businesses would be open, albeit with safety measures in place.	Slightly more restrictions - indoor household meetings would reduce to 6 people from 2 households - but there would still be a reasonable degree of normality overall.	Restrictions broadly similar to those currently in place (not including increased restrictions in the central belt) including limitations on hospitality and no gatherings inside people’s homes.	Broadly similar to the tougher restrictions which currently apply across the central belt, with much of hospitality being closed completely. However, it is envisaged that restaurants would be able to be at least partially open in level 3.	The highest level, will not be used unless absolutely necessary – The restrictions at level 4 are closer to a full lockdown. For example, non-essential shops would have to close at level 4. However, even under level 4 restrictions, 6 people from up to 2 households could still meet outdoors; there would be no limit on outdoor exercise for individuals.
